CONDITIONS

AFFECTING ABUSE AND NEGLECT

The conditions identified below do not predispose parents to abuse or neglect their children. However, many families in the child protection system struggle with one or more of the following:

Poverty and Employment

In 2003, a family of 3 was considered at or below 100% of poverty with an annual household income of **\$15,670**. A full-time job must pay at least \$7.54/hr to reach this level, 46% higher than the current minimum wage (\$5.15 hr).

Statewide, poverty has **INCREASED** with an estimated **12.1%** in 2003 compared to the Census 2000 rate of 10.6%. This is attributed to the inequitable growth/loss of employment and income throughout Ohio. Countywide, total employment from 2000 to 2003 **DECREASED 7.5%**.

Affordable Housing

It takes an hourly wage of **\$8.44** in a 40-hour work week to afford the Fair Market Rent of **\$439 a month** for a two-bedroom apartment in Muskingum Co. As a result, **37% of renters** cannot afford a two-bedroom apartment.

Teen Pregnancy, Infant Mortality

Teen pregnancy and infant mortality aid in predicting the healthiness of a community. For 2002,

Teens, age 19 and under **157 births** (20% decrease from 1997)
Infant Mortality Rate **8.7 deaths/1000 live births** (2010 U.S. goal is 4.5)
% of Low Birth Weight **9.5%** (2010 U.S. goal is 5.0%)
