

PCSAO Seeks AmeriCorps VISTA

Do you have a passion for improving the lives of kids and their families struggling with substance use disorders? Help keep kids safe and families together. Join the Ohio Sobriety, Treatment and Reducing Trauma (START) pilot program!

With support from the Corporation for National and Community Service, the Ohio Association of County Behavioral Health Authorities Foundation is working with PCSAO, local ADAMH Boards and other partner organizations to develop a statewide VISTA project designed to impact the opioid epidemic in Ohio. Through this project, VISTA members will serve with community organizations throughout Ohio.

The Ohio START VISTA will work in conjunction with the Director of Ohio START and other team members to provide support and management of the Ohio START Pilot Program in Ohio. The VISTA will engage and support family peer mentors and Ohio START caseworkers in peer-to-peer learning activities; provide support for current funding sources, research potential funding sources in support of sustaining Ohio START; research and write educational materials and papers related to the opioid epidemic and child welfare; and serve as Ohio START pilot liaison to county hubs to combat opiate addiction. The Ohio START VISTA will be an integral part of the START team providing support and leadership for the PCSAs implementing the program and creating a sustainability plan to allow the program to continue and grow.
